-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-19 and 30-33, drawn to compounds of formula I and their corresponding pharmaceutical composition.

Group II, claim 20, drawn to a method for inhibiting dipeptidyl peptidase-IV enzyme activity with a compound of claim 1.

Group III, claims 21-22, drawn to a method of treating diabetes with a compound of claim 1.

Group IV, claim 23, drawn to a method of treating hyperglycemia with a compound of claim 1.

Group V, claim 24, drawn to a method for treating obesity with a compound of claim 1.

Group VI, claim 25, drawn to a method of treating lipid disorders with a compound of claim 1.

Group VII, claim 26, drawn to a method of treating one of 23 diseases wherein insulin resistance is a component. Should Applicants elect this group, election of a single condition is required.

Group VIII, claim(s) 27 and 28, drawn to a pharmaceutical composition of a compound of claim 1 with additional active agents.

Group IX, claim(s) 29, drawn to a method of treating diabetes with a combination of a compound of claim 1 and an additional active agent.

The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims lack unity of invention because they are

Art Unit: 1624

of divergent scope. Further, the different methods of use raise different issues of patentability and require separate searches in the literature.

Note that compounds, corresponding compositions, a method of use and a process of making that are of the same scope are considered to form a single inventive concept under PCT Rule 13.1, 37 CFR 1.475(d). The claims are not so linked as to form a single inventive concept. A method of use claim that is of the same scope as the compound claim will be examined along with the compounds and pharmaceutical compositions.

During a telephone conversation with Mr. Philippe Durette on March 2, 2006 a provisional election was made with traverse to prosecute the invention of group I, claims 1-19 and 30-33. Affirmation of this election must be made by applicant in replying to this Office action. Claims 20-29 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Allowable Subject Matter***

Claims 1-19 and 30-33 are allowed.
